D	1.	INTRODUCTION
D	1.1.	GL Hearn has been Instructed to provide a Financial Viability Assessment (FVA) on behalf of the Applicant, Newmark Properties (SN) LLP.
D	1.2.	The purpose of the FVA is to demonstrate that the affordable housing being offered is the maximum which can reasonably be provided in accordance with planning policy due to the viability of the scheme.
D D	1.3.	This report should be read in conjunction with the Ptanning Statement and Affordable Housing Statement which have been submitted as part of the planning application.
B	1.4.	This report does not constitute a valuation and it therefore is exempt from the current RICS Professional Standards (the 'Red Book').
U	1.5.	The Applicant proposes to redevelop the existing properties on the site to provide a mixed use development comprising a foodstore, 53no. residential units, and associated disabled car parking and servicing.

Ð	2	DETAILS OF PROPOSED DEVELOPMENT
G	2.1.	The subject site is localed in Stoke Newington, North London, close to live junction with Stoke Newington Church Street.
D	2.2.	The slie has an area of 0.511 heclares (1.263 acres).
ଶ	2.3.	The current proposais are for a foodslore at ground floor level with additional plant areas at par lower ground and part mezzanine. Above this, a podium will be constructed providing access to
$\triangleright$		53no. residential units with the following mix:-
Ð		Beds         Private         Affordable Rent         Shared Ownership         Total           1         13         1         2         16
-		2 17 3 1 21
0		
Ð		<u>4 - 1 - 1</u> Total 44 6 3 53
D	2.4.	The scheme will lherefore comprise 17.0% affordable housing based on unit numbers (16.9% based on habitable rooms).
Ð		·
Ð	2.5.	The residential units will be built over first to fourth floors.
D	2.6.	The northern block will be 100% privale accessed through a single core.
Ð	2.7.	The southern block will have two cores. One core will provide access to the rented units on the first floor. A second core will provide access to shared ownership and private units on the second floor, with the remaining private units on the third and fourth floors.
Ð	2.8.	A 4 bed rented unit will be created over mezzanine and first floor levels, accessible from its own private entrance.
Ð	2.9.	An individual unit schedule is attached as Appendix A. There will be 6no. disabled car parking spaces for residential occupiers accessible from Stoke Newington Church Street/Wilmer Place.
۵	2.10.	The foodstore will have a NIA of 2,722sqm (29,300sqft). There will be no car parking for the foodstore.
B	2.11.	The following sections of this report detail our approach to assessing the viability of the proposed development.

D		

### G 0 G C G 3. VIABILITY METHODOLOGY 0 3.1. in accordance with established viability methodology, we have undertaken a residual appraisal of the proposed development. This involves making an assessment of the completed development 0 value (Gross Development Value) and Ihan deducting the costs of development, including profit and other Section 106 contributions, in order to arrive at a residual land value. 0 3.2. The residual land value is then compared to a benchmark figure. 0 Vlability Background 0 3.3 The current planning application is a new application following the recent refusal of application G 2012/2228. 3 3.4 A Financial Viability Assessment (FVA) was submitted with that previous planning application. The FVA was reviewed on behalf of the Council by Jones Lang LaSalle (JLL) just prior to the E Planning Committee meeting on 3 April 2013. JLL confirmed to the Council that the assumptions contained within our FVA were reasonable and that the affordable housing offer of 6no. rented unlis and 3no. shared ownership units (17% affordable housing) was also reasonable. G 3.5. Given that only around six weeks have passed since JLL undertook their assessment, we have 0 adopted the same assumptions in this updated FVA, subject to some minor amendments to reflect the scheme changes. 6 3.6. We set out in the following sections the principal changes we have made to our development Ø appraisal. C **Private Residentiat Values** a 3.7. We have adopted a rale of £500ps() respect of private sales values and this has previously been agreed with JLL. Arguably this could reduce given that the Applicant has increased the Ð proportion of family units within the development to deal with one of the reasons for refusal given In respect of application 2012/2228. G 3.8. As commented above, a full unit schedule is attached as Appendix A. a 39. Based on the above values, our GDV for the private sale units is £18,309,500. In addition we have included private ground rental income at an average rale of 250 per Unit per annum which 9 we have capitalised at a yield of 6%. As agreed with JLL previously we have not deducted any 9 purchaser's costs in respect of these ground rents. 0 Affordable Housing Values J 3.10. The value of affordable housing is determined by a number of factors including the tenure, rent policy and the availability (or not) of grant funding. 0 3.11. The proposed affordable housing units will be secured under a Section 106 Agreement. The Homes & Communities Agency (HCA) has stated that affordable housing units being provided 0 under a Section 108 Agreement will not be eligible for grant funding as the subsidy should be coming from the developer. We have lherefore not included any grant funding within our A appraisals. 0 3.12. The scheme will include 6no. affordable rent units comprising 1 to 4 bedrooms and 3no. shared ownership units comprising 1 and 2 bedroom flats. 0 Financial Viability Assessment Wilmer Place 158977 - May 2013 GL Heam a Land at Wilmer Place, 193-201 Stoke Newington High Street, London N16 0LH Page 5 of 9 O WEED USENS & LAND-relation when Property how and the contract of the 2013 for the 0 0

3.16. The 3 and 4 bed units will be let at Target RenIs. 3.17. development with the following local RPs:-A2Dominion Housing Group Family Moselc Islington & Shoreditch Housing Association Network Housing Group **One Housing Group** 3.18. units. 3.19. account the above rent policy. 3.20. **Foodstore Value** 3.21. 3.22. 3.23. 3.24.

3.13.

2012).

3.14. in respect of the affordable reni units we have assumed that an RP would let the units to occupiers based on the following rent policy:-

We have lialsed with the Council's Housing Department (Stephen Kersley) over several months with regard to the scheme and we have been provided with a copy of the Council's updated

interim position statement on the Affordable Homes Programme 2011-2015 (updated January

Bads	% of Market Rent	Gross Market Rent pw	Adjusted Gross Rent pw	LHAMay2013 pw
1	70%	£325L	£228/	£245
2	60%	£4251	£2551	£296.38/

3.15. Rents at this level are well below the Local Housing Allowance levels as detailed above.

The completed affordable housing units will be transferred to a Registered Provider (RP) in the usual manner. We have previously market-lesled the affordable housing element of the

- As previously discussed with the Housing Department and with JLL, the Applicant is in advanced discussions with One Housing Group in respect of selling them the completed affordable housing
- We have appraised the affordable housing element of the scheme using SDS Proval and arrived at values of £155psf for the rented units and £200psf for the shared ownership units taking into
- One Housing Group made an offer on the affordable housing element of the recent 2012/2228 scheme. Their offer of £1,493,375 Was slightly lower then our own valuation figures. We therefore consider that the figures we have adopted in our model are robust.
- The foodstore element of the scheme remains unchanged from the 2012/2228 scheme. Again our valuation of this element of the scheme has recently been confirmed as reasonable by JLL.
- A copy of the lease has been sent to JLL as part of their review.
- in summary the foodstore has a completed value of £10,000,000, which after deduction of standard purchaser's costs gives a nel value of £9,450,000.
- The total GDV of the development (net of standard purchaser's costs) is c129.4m Mion?

### Build Costs

- 3.25 A full cost plan in respect of the 2012/2228 scheme was provided by our client's Quantily Surveyor, Davis Langdon. This was reviewed by JLL and confirmed as reasonable.
- 3 25. We attach as Appendix B the Davis Lengdon cost plan in respect of the 2012/2228 scheme which totals £16,449,000
- 3.27. The current scheme proposals have changed to address concerns of Members with the result that the scheme mix has changed and the number of residential units has reduced from 54no. units to 53no. units. The development has also been pulled further back from the cemetery boundary. The retail element is unchanged.
- 3.28. We have therefore adjusted the Davis Langdon cost plan to reflect the revised floor areas and our updated build costs are attached as Appendix C.
- 3.29. The total build cost has reduced slightly to ct 18,110,000 as at Quarter 1 2013. No allowance has been made for inflation from this point to start on site. The figures do not include a contingency or professional fees so these have been added separately.

### Other Costs

3.30. in addition to the base build costs we have allowed for the following at standard market rates:-

llem	Rate	Comment
Professional Fees	10%	
Contingency	3%	
Finance	7%	
Profit	20% on private sale; 6% on affordable housing; 15% on foodstore	In line with market practice and Three Dragons toolkit benchmark for affordable housing. Reduced profil on foodslore to reflect pre-let to Sainsbury's.
Sales Agent & Legai	Slandard markel rales	

Section 106 Contributions & Mayoral CIL

- 3 31. We have been advised by our client's Plenning Consultant to include an allowance of £625,000 for Section 106 contributions at this time however these are still to be negotiated between the parties.
- 3.32 The Mayor of London has introduced a Community Infrastructure Levy (CiL) to help fund Crossrall.
- 3.33. CIL came into effect at the beginning of April 2012 and In LB Hackney it applies at a flat rate of £35psm. CIL is not payable on affordable housing units.
- 3.34. At this stage we have not deducted the cost of CiL in our appraisals, however this will adversely impact on the scheme viability.

)		
)		Development Appraisal Summary
0	3.35.	
3	3.39.	We have undertaken our development appraisal using Argus (Circle) Developer which is an Industry standard development appraisal package which is commonly used for viability studies such as this.
3		
	3.36.	A copy of our development appraisal is atlached as Appendix D.
	3.37	This shows that the residual land value of the proposed development is $42,940,000$
2	3.38	As mentioned earlier in this report, It is standard practice to compare the residual land value of the proposed development to a benchmark (igure and this is normally the Existing Use Value.
$\mathbf{D}$		
h.		Existing Use Value (EUV)
9	<b>3.39</b> .	Our client has provided us with a copy of their Existing Use Valuation prepared by Colliers CRE. This gives en Existing Use Value for the current accommodation on the site of £8,525,000.
D	3.40.	Again, the EUV has previously been reviewed by JLL and they consider the assessment to be reasonable.
D		
D	3.41.	It should be noted that some of the existing units on the site have been used as residential for several years albeit these have not been regularised with a Certificate of Lawfulness as of yet.
3	3.42.	Colliers CRE also prepared an EUV on the basis of these units being valued as residential and the EUV on that basis is $\underbrace{15,000,000}_{1,000}$ .
5	3.43	Notwithstanding the established residential use at the site, we have relied upon the appraisal on the basis of the current accommodation as employment use.
	3.44.	The Colliers CRE valuation summary is attached as Appendix E.
D	3.45	It is acknowledged in standard viability methodology that there is a difference between scheme viability and sile viability. In other words just because a scheme's end value is sufficiently high to enable the developer to make a reasonable profit, the residual land value also needs to be high
5		enough to encourage the land owner to bring the site forward for development.
- D	3 46	There is no hard and fast rule as to the level of uplift required from an Existing Use Value to encourage a landowner to sell however the previous version of the toolkit guidance notes to the
- 9 2		Three Dragons model considered a range of 20-30% was normally appropriate.
Ð	3.47.	If the demands placed on a development are too great (in the form of Section 106 contributions/CIL, affordable housing requirements elc), then the development will not come
D		forward.
B	3 48	In the case of the subject development, the residual land value of £2,840,000 is £585,000 Jower than the Existing Use Value. It would therefore be justifiable in viability terms for a lower
Ð		affordable housing provision to be offered and still remain policy compliant.
Ð		Nevertheless our client recognises the importance of affordable housing to the Council and in the interests of promoting a mixed and sustainable community, they are prepared to make their
D		affordable housing offer of 17% as set out within this report.

B		
D		

### G 0 0 a D CONCLUSIONS 4. B 4.1. The scheme will comprise 17% affordable housing based on unit numbers (16.9% based on habitable rooms), with 6no. affordable rent units and 3no. shared ownership units. 0 4.2. The preceding sections of this report have demonstrated that our client's affordable housing offer 0 is the maximum level of affordable housing that the scheme can sustain; indeed a lower offer is justifiable in viability terms. 0 4.3. We have adopted standard viability methodology In our approach and provided a fully evidenced 0 report to back up our assumptions. In our opinion the development proposals are therefore policy compliant in terms of affordable housing level as planning policy requires viability to be taken into G account as part of the decision making process. 0 It is also worth noting that the level of affordable housing at 17% was not a reason for refusal in 4.4. the case of the 2012/2228 scheme and that this level of affordable housing has been maintained 0 in this application despite the loss of a private unit.
